## EXPERIENCE

### FULL STACK WEB DEVELOPER

Problem Solvers LLP | Bengaluru, Karnataka | Jan 2023 – Apr 2023

- Sole Developer: Led the entire project as the sole developer, taking full ownership and demonstrating strong self-motivation and independent problem-solving skills.
- Productivity Tool with Pomodoro Technique: Implemented a dynamic timer with customizable settings, leveraging **socket.io** for real-time synchronization with the server. The server, built on **NestJS**, was supported by a **MongoDB** database.
- Created a competitive environment for users by incorporating a **leader board** feature.
- Task Management: Implemented a robust task management system to optimize productivity.
- Insights and Analytics Dashboard: Developed an insightful analytics dashboard with intuitive **charts and graphs**. Users could gain valuable insights into their productivity patterns.
- leveraged **AWS** to store images and music, including premium music options, providing users with an enriched experience.
- Integrated **RazorPay** payment gateway to enable a subscription-based model, ensuring a seamless user experience and revenue generation.

### FULL STACK WEB DEVELOPER

BuiltDesign | Nagpur, Maharashtra | Jul 2021 – Jul 2022

- Developed and optimized a high-performing website catering to over **4000 users**, emphasizing efficiency and maintainability.
- Collaborated closely with the product team to implement cutting-edge features and devise **scalable architecture** plans.
- Created an intuitive **admin dashboard** to efficiently manage and announce contest winners, alongside a client dashboard enabling user participation and entry submissions.
- Leveraged **NextJS**, **React with Typescript** to deliver captivating front-end experiences, ensuring a smooth user interface.
- Utilized **NodeJS**, **ORM**, and **MongoDB** to design and manage databases, ensuring data integrity and seamless backend functionality.
- Played a crucial role as a backend developer, employing **GraphQL** and **NestJS** to design and implement robust **APIs**, enhancing overall system performance.

### MOBILE APPLICATION DEVELOPER

The Super Quotes | Bengaluru, Karnataka | May 2021 – Aug 2021

- Spearheaded the end-to-end development of a comprehensive application, utilizing **JavaScript** and **React Native** to write efficient and high-quality code.
- Successfully integrated **APIs** seamlessly into the application, ensuring smooth data flow and enhancing overall functionality.
- Implemented **Redux** for effective state management and performance optimization, resulting in a seamless and responsive user experience.
- Published the application on the **Google Play Store**, expanding its reach and accessibility to a wide user base.
